## 9 Organisational Chart

Principal is the academic and administrative head of the college, assisted by Vice Principals, Heads of Departments and Registrar.

## 10.10 Student feedback mechanism on Institutional Governance/faculty performance

The Student Council is the main channel for feedback on Governance. There is a formal procedure, forming an integral part of students' performance evaluation of faculty. Formal feedback is also sought from alumni and industry. Informally, feedback is also taken from professional bodies, professionals and other agencies through interactive roles.

## 10.11 Grievance redressal mechanism for faculty, staff and students

As per the University guidelines, the college has a Women Development Cell (WDC), formed to look after women (female staff and students) grievances, if any. WDC often organizes programmes for the benefit of women. A Grievance Committee also exists in the college to look after the grievances of staff members and to address them. Local Managing Committee also takes care of staff and students grievances. Unfair means committee appointed by the Principal independently enquires any unfair

practices followed by the employees and the students and reports the finding of the enquiry to the Principal. Students' Council of the college also plays a vital role in this direction. Many of the grievance related issues are sorted out at the desks of heads of the departments / Principal. Any other major grievances that cannot be sorted out through any of the above committees/mechanisms are referred to the top management for appropriate follow up and advise. This year we have celebrated women's day on 12<sup>th</sup> March, 2017. All the teaching and non-teaching staff were invited. Dr. Lata Joshi, Doctor & Nutritionist was invited to guide all the ladies staff how to take care of our health in the busy schedule of our life.

#### **Magazine/Newsletter:**

**Techno Focus:-** Journal for budding Engineers : In order to provide our students an opportunity to develop the skills of writing a research paper, we publish an on-line journal, which is a platform for budding engineers to publish their research and project related work.

‘Techno Focus’, Journal for budding engineers was started in October 2010 (volumn 1, issue 1). Since October 2012 (Volumn 3, issue 1), the Journal has gone online with

online ISSN No. 2321-0532. The latest issue of journal was published in March 2017 (Volume 7, issue 2) ([www.technofocus.djscoe.org](http://www.technofocus.djscoe.org))

**Technical activities / Tech Fest:**

1. Technical lecture meetings in collaboration with professional bodies are organized to give exposure on emerging areas of technology. Students are encouraged to give technical presentations in the class on topics beyond the syllabus and also take part in technical paper presentations.
2. Technical films/ video clippings etc are screened in the class to orient the students on various aspects of technology.
3. DJ Spark 2017 is a State Level technical project competition hosted by Dwarkadas J. Sanghvi College of Engineering that aims at rekindling an Engineers ever present thirst to make, to build, to innovate, and to conquer. It brings together Engineering students from all over Maharashtra inviting them to demonstrate their projects and compete with one another giving them all a common platform as well as to submit paper about their projects. Eminent personalities from industries are invited to access projects based on innovative idea and applicability. DJ Spark is not only a platform for the participants to compete but also to share technical ideas and views. The top projects are awarded. The papers of selected projects are published in DJ Spark's own Technical Journal having an ISSN number.
4. **International Conference on wireless communication -2017 (ICWiCOM):**  
ICWiCOM-2017 (International Conference on wireless communication -2017) to be organize by Electronics & Telecommunication Engineering department of DJSCE. The ICWiCOM-2017 is scheduled on 19th – 20th January, 2018. The conference aims at various research work in different areas of communication networks, signal processing and RF& Antennas. The conference will have plenary and technical sessions. All accepted and presented papers based on original findings will be send for publication in Springer International Journal. Under ICWiCOM, department had organized workshop on ethical hacking conducted by Skynet securities during September 2016. Total 65 students from our college across different branches attended the same.
5. **“DJ NIRMITI” - Igniting Manufacturing Renaissance:**  
Departments of Production and Mechanical Engineering jointly with ISME had organised a two day technical festival named “DJ Nirmiti-Igniting Manufacturing Renaissance” on 21<sup>st</sup> & 22<sup>nd</sup> March 2017. DJ Nirmiti 2017, which did not only offer final year students with an opportunity to present their projects, but also kindled a spirit of manufacturing and designing through events like Bridge the Gap and CAD Challenge in First, Second and Third Year Students. Project Competition saw a total of 70 different projects being presented over a span of two days, seeing brilliant ideas like rotary parking systems, underwater surveillance vehicles, unmanned aerial delivery vehicles, optimization of heat exchanger manufacturing processed and 360 degree vertical axis windmills for urban areas to name a few. CAD Challenge saw an overwhelming participation head count of 40 budding designers challenged with a task to make a 3-D model of particular engineering components in a minimum time frame on SOLIDWORKS or AutoDesk INVENTOR software, both of which are widely used in the industry. This event tested participants’ speed software proficiency, logical reasoning and design skills through 3 rigorous rounds. Bridge the Gap, semi-fun and semi-technical event tested the ability of a participant to apply principles of structures and physics by asking them to build a bridge using limited number (125) of Popsicle sticks and only 100mL Glue. Bridge that could sustain maximum

weights won and at the end of the event, the organisers were surprised to see the creativity and application of young first and second year students as the winning bridge withstood a weight of 10.2 kgs. DJ Nirmity in its very first year saw participation from 7 different colleges from Mumbai seeing a footfall of 500 budding engineers over the course of two days.

**6. “DJASCII” - Project Competition:**

State level project competition DJASCII was organized by Computer and IT departments on 1st April 2017. The primary objective of the competition was to provide a platform for students to present their research/project work. There was a massive participation of the students from the college as well as out-of-college students. 61 teams participated in round one. Various projects from different domains such as Artificial Intelligence, Augmented Reality, Data Mining, NLP, etc. were presented for Round One out of which 8 teams made their way to the Final round. A team of five experts from the field of IT graced DJ-ASCII with their presence to judge the best projects of the competition. Along with the project presentations, posters were displayed by the students of the final year from Computer Department and Information Technology Department of the college. This splendid event concluded with the valedictory function disclosing the results of the project presentation as well as the poster presentation. The gap between the industrial demand and the education system should be bridged by involving students to participate in competitions like these and foster their technical and presentation skills.
