

## IETE-SF AND TECHNOJOURNAL WEBSITE

### INTRODUCTION

The Institution of Electronics and Telecommunication Engineers (IETE) is India's leading recognised professional society devoted to the advancement of science and technology of Electronics, Telecommunication and IT. We, the students of Electronics and Telecommunication Engineering (EXTC) at D.J. Sanghvi are a student forum of IETE who are responsible for improving the standard of engineering education within our college.

### *IETE-SF Website*

### *Techno Journal Website*

The IETE-SF maintains two separate websites that describes all the activities conducted by the committee through the various academic years of its history.

The IETE-SF website includes multiple tabs detailing about various sectors. The Events tab enlists the events conducted with a detailed description of the experts invited, the number of participants and the scope of the workshops. It has dedicated tabs for the flagship events – DJ Strike and DJ Spark –

including a brief description of the same. It also has separate tabs for the teams working under the EXTC department – DJS Arya and DJS Antariksh – as well as the ICWiCOM conference.

The IETE-SF Techno Journal website is specifically designed for the flagship events DJ Strike and DJ Spark. It maintains a meticulous record of the magazines that have been published every year since the conception of the competitions. A brief description of the faculty and student committee responsible for the publication is provided and a list of the ISBN numbers is recorded for each magazine.
