ACADEMIC REPORT

July 2024 – Dec 2024

1. About Department

2. Administration

3. Special Academic Programs

4. Faculty Contribution

    4.1 Faculty Publications: National / International Conference / Journal

    4.2 Interaction of Faculty with Outside World

    4.3 Seminars/Workshops/Conferences/FDP/STTP/Expert talk organized

    4.4 Seminars/Workshops/Conferences/FDP/STTP/Expert talk attended

5. Students' Achievement

6. Placement Data

VISION

To impart high quality education, promote research culture and inculcate ethical values to develop/produce professionally competent engineers capable of meeting global challenges.

MISSION

1. Encourage research aptitude and analytical approach to prepare students for facing technological challenges in computing field.

2. Develop professionals, equipped with soft skills, ethical and social values for betterment of society.

3. Create awareness about sustainability concerns and ongoing trends in computing field.

4. To nurture and provide a collaborative environment for enabling aspiring technocrats to meet industry expectations.

5. Provide competent faculty and systematic modern approach in teaching-learning with stateof-art infrastructure.

Program Educational Objectives [PEOs]

1. To impart quality education to students, while encouraging innovations and research culture in keeping abreast with technological advancements in computing.

2. To develop computer professionals with comprehensive knowledge, capable of facing indigenous and global challenges.

3. Develop computer professionals to fulfill industry expectations and social aspirations.

Academic Year: 2024 - 25
Department of Computer Engineering

Programs Specific Outcomes [PSOs]

By the completion of Computer Science program, the student will have following Program specific outcomes.

1. Graduates will be able to understand and apply principles of basic sciences and engineering to design and develop reliable and efficient computer applications using modern tools and technologies.

2. Graduates will demonstrate proficiency in programming languages, algorithms, and data structures to analyze real-world problems, model computational solutions, and evaluate their performance across various computing platforms.

3. Graduates will be able to apply computing knowledge in interdisciplinary domains, demonstrating effective communication, leadership, teamwork, empathy, and ethical responsibility. They will be equipped to collaboratively design inclusive, sustainable, and impactful solutions that address complex societal, environmental, and global challenges.

About the Department

- Started in the year 2001 with undergraduate program affiliated with University of Mumbai.
- NBA Accredited
- Intake: B.Tech: 180, M.Tech: 18, PHD: 10
- Fully air-conditioned classrooms with Smart boards
- Laboratories equipped with advance software and hardware
- Provide all kinds of support to develop application with advanced technologies.

Courses offered

- B.Tech Computer Engineering
- M.Tech Computer Engineering
- Ph.D. Technology
