

**Department of Computer Engineering**

**A.Y. 2009-2010**

**List of Projects Undertaken by B.E. Students**

1. Development of a Public Cloud
2. Mobile and Web based Enterprise Resource Planning System
3. SOA based SMART CITY
4. An optical character recognition and Text to speech based embedded system to aid reading for the blind
5. Virtual Keyboard
6. Intelligent Document Matching System
7. 3D Scene development and analysis using parallel processing
8. Desktop File Browser and Multimedia Streaming on a mobile device
9. Intrusion detection using real-time data mining
10. Application of clustering data mining algorithms to design recommendation engine for Twitter
11. Automated Surveillance System
12. Fault Tolerance in Sensor Networks for Tracking Forest Fire
13. Bus Schedule Indicator
14. Dynamic Traffic Control System
15. Biometric Attendance Tracking System
16. Development of Network Controller application
17. Automation of Business Process Management
18. Sms and bluetooth based home appliance control and security system
19. Performance analysis and design of grid scheduling algorithms
20. DOS on VOIP
