Department of Computer Engineering

A.Y. 2010-2011

List of Projects Undertaken by B.E. Students

1. Adding Interactivity to E-learning Through Gesture Recognition

2. Business Intelligent Solution for Retail Industry

3. System Security Using IP camera

4. Application of Data mining in Mobile Computing

5. Cascaded Payment System in P2P Network

6. Intelligent Agent For Mobile Value Added services

7. Offline Handwritten Signature Verification

8. Modeling of wireless channel Propagation Models for IEEE 802.16

9. Estimation of Synchronization Error in OFDM Based Communication System

10. Semantic BASED Video Retrieval System

11. A QoS Provisioning Scheme for Voice and Data Traffic Over WLAN

12. Invite Replay Attack on VoIP System and Its Application

13. Driving Direction on Mobile with Voice Commands

14. Robotic Arm Emulation

15. Semantic Based web Image Retrieval

16. Cloud Computing featuring Ontology

17. Optimization of Network Flow Using Distributed System (Hadoop)

18. Piano/ Electronic keyboard tutor with illuminated keys

19. Hybrid Storage System

20. Context Aware Personalized Application For Mobile Device

21. Web Filtering Software

22. Personalized OS Scheduling Using Mining Techniques

23. GRASPÃ¢€Gesture Recognition and Sound Production

24. UID Application Using Service Oriented Architecture
