Internship Summary Report - Academic Year 2024-25

During the academic year 2024-25, a total of 579 students actively participated in internships, significantly contributing to their academic and professional growth. The internship program, spanning from July 2024 to June 2025, included both paid and unpaid opportunities, providing students with a diverse range of experiences.

Department-wise Distribution:

Name of the Department	Number of students did the internship
AI_DS	56
COMP	104
CSE (ICB)	33
CSE (DS)	127
IT	102
MECH	26
AI_ML	112
EXTC	19
Total	579

The table above highlights the distribution of interns across different departments. The departmental breakdown demonstrates the diverse array of opportunities available to students, allowing them to apply their academic knowledge in practical settings.

Internship Duration:

The internship records considered in this report cover the joining period from July 2024 to June 2025.

Paid and Unpaid Internships:

The internship records encompass both paid and unpaid opportunities, emphasizing the commitment to offering students a variety of experiences. This approach recognizes the value of internships in skill development, irrespective of financial compensation.

Data Source:

The records presented in this report are based on the data submitted by department coordinators and the same is verified with the central office. This collaborative effort ensures accuracy and reliability in reporting the internship activities of students.

In conclusion, the internship program for the academic year 2024-25 has been a robust initiative, with 559 students actively participating in various internship opportunities. The gender and departmental distribution reflects the commitment to providing inclusive and impactful experiences for students across diverse academic backgrounds. As we acknowledge the contributions of these interns, the collaborative effort of department coordinators and T&P cell in providing accurate data is essential for shaping future internship programs.
