

MoU: RWTH Aachen University, Germany & DJSCE, Mumbai

SVKM's Dwarkadas J. Sanghvi College of Engineering (DJSCE), Mumbai, has entered into a Memorandum of Understanding (MoU) with the RWTH Aachen University, Germany. This collaboration aims to strengthen international academic and research engagement between the institutions.

The MoU reflects a shared commitment to promoting global cooperation in education, research, and innovation, particularly in engineering and interdisciplinary domains.

Objectives of the Collaboration

- To promote international academic and research cooperation
- To create a structured framework for joint academic and research activities
- To enhance global exposure for students and faculty

Key Areas of Collaboration

- Student Internships, Higher Studies, and Research Opportunities (including international and hybrid research engagements)
- Joint Research Projects: Collaborative work in emerging engineering and scientific domains
- Faculty Collaboration: Exchange of expertise, lectures, and joint supervision
- Academic Programs and Activities: Workshops, seminars, training programs, and short-term courses
