

## **DJS ACM SIGAI UPDATES ON WEBSITES**

### **ABOUT US:**

DJS ACM SIGAI is a new student chapter founded by Dwarkadas J. Sanghvi College of Engineering students in the Artificial Intelligence and Machine Learning (AI\_ML) department. SIGAI is affiliated with the Association for Computing Machinery (ACM), a U.S.-based non-profit dedicated to education in the computing field. The student chapter's mission is to promote and support the development and application of AI principles and techniques throughout the computing industry.

### **VISION OF DJS ACM SIGAI**

“If your mind can think, so can mine”

We strive to enable students to gain knowledge, skills and develop as a community by introducing them to the rapidly expanding and increasingly interdisciplinary field of Artificial Intelligence, Machine Learning and Deep Learning through a series of seminars, skill-building workshops and other events spread out over the course of the year.
