

ANNUAL SPORTS DAY 2026

Date of the Event: 28th February, 2026

Venue: Bhailal K Patel Maidan, Juhu

Timeline: 7:15 AM to 4:30 PM

Participants: Students of Dwarkadas J. Sanghvi College of Engineering

Description:

Dwarkadas J. Sanghvi College of Engineering celebrated its Annual Sports Day on 28th February, 2026. The eagerly anticipated event was held at the Bhailal K Patel Ground, Juhu and saw the participation of hundreds of enthusiastic students all raring to prove their mettle on the field.

The event commenced with the Principal, Dr. Hari Vasudevan, performing the auspicious breaking of the coconut ritual to symbolize new beginning and good luck. The Principal, in his speech, emphasized how students are the future of the country and encouraged them to contribute to the nation's progress.

Following this, Dr. Ramesh Rajguru, the Jt. Convenor (Sports), took the stage and motivated the participants to perform their best.

After the conclusion of his speech, the ceremonial torch (*mashal*) was lit and the Secretary of Sports, took a lap around the ground, holding the torch aloft – signifying the start of the sporting events.

The event kicked off with a March Past showcasing the diversity of the committees and student chapters of the college including DJS Trinity, National Service Scheme (NSS), Computer Society of India (CSI), Association for Computing Machinery (ACM), Institution of Electronics and Telecommunication Engineers (IETE), Society of Automotive Engineers (SAE), Society for Data Science (S4DS) and more.

Lunch was announced at 1:00 p.m. and the sporting activities re-commenced at 2:00 p.m.

The following sporting events took place:

1. 1000 METERS RUNNING

The 1000 metres is an uncommon middle-distance running event in track and field competitions. This event is not just a test of speed, endurance, and skill but also of technique and keeping your cool no matter how discouraging and physically demanding it might be throughout the race.

The participants ran with all their might and the winners were determined by a close finish. The winners, Pranav Shetty (Boys) & Vruddhi Zaveri (Girls), showed remarkable speed and endurance, earning well-deserved applause from the spectators.

2. 100 METERS RUNNING

At the sound of the clap board, the runners shot off into the wind, all vying to be the first one to cross the ribbon at the end of the track and be called 'the fastest'. Widely considered to be the most prestigious event of any athletic competition, the 100m sprint has a long and storied history.

3. 200 METERS RUNNING

The 200m race is a great test of speed as well as endurance. This is the race where small strategy errors can be proven careless as it is also an event which gets over instantly. But the athletes also need to ensure they do not get tired instantly by going all out at the start.

4. 4 X 100 METERS RUNNING

A relay is a running competition in which the members of a team take turns completing parts of a 400m racecourse. Each 100m part of the track is run by a different member who passes on the baton to the next member after their turn is done.

5. LONG JUMP

The Long Jump is a sporting event in which the contestants aim to leap as far away as possible from a take-off point and land in a sandpit. It has been designed to test the competitors' speed, strength, and agility. The event has been in practice since the Ancient Greek Olympic Games and is considered one of the most difficult.

The qualifying distance for our event was 4.5 metres. Candidates who cleared this were promoted to further rounds where the ante was upped.

6. SHOT PUT

The first game of the day, it tests the strength and aim of the competitors. One must throw a heavy ball as far as possible within the bounds of a marked area.

The participants' performance was commendable with many passing the qualifying round. The distance for the qualifying round was 5m for girls and 6m for boys.

7. TUG OF WAR

Tug of War is a game in which two opposing teams hold opposite ends of a rope and attempt to 'tug' the other team over a middle line. It is a test of strength and endurance.

The enthusiasm and competitive spirit amongst participants were fierce, as a team of 7 from each department competed in the event.

8. MUSICAL CHAIRS (TEACHING & NON-TEACHING STAFF)

To promote a fun and light-hearted atmosphere among both the teaching and non-teaching staff, a game of musical chairs was organized. This game provided a welcome break from the usual routine and allowed for the staff members to bond with one another in a relaxed setting. The event was a resounding success and brought joy to all those in attendance.

All in all, the day was a resounding success that showcased the diverse range of talents and abilities within the DJSCE community. The participation of students in various competitions and committees highlighted the strength and unity of the college.

The enthusiasm and energy displayed by all participants made the event truly unforgettable. We hope that this tradition continues in the years to come and provides a platform for students to showcase their skills and talents.
